

ENERGY NETWORKING BREAKFAST

ENGINEERING OUR FUTURE POWER SYSTEM WORKFORCE

The engineering workforce will be crucial to ensuring a successful implementation of the Finkel Review recommendations. Specifically, the Finkel Review recommends that by mid-2019, the COAG Energy Council facilitates the development of a national assessment of the future workforce requirements for the electricity sector to ensure a properly skilled workforce is available.

Join us for breakfast to hear from key industry players who will discuss and debate the development of engineering expertise in the power sector and share their insights into how we might achieve the Finkel Review recommendations.

SPEAKERS

KEYNOTE AND PANELLIST

Dr Kerry Schott AO
Independent Chair of the
Energy Security Board (ESB)

MC AND MODERATOR

Dr Peter Sokolowski
Chair - Engineers Australia
Electrical College Victoria Branch

PANELLIST

The Hon Trish White
Engineers Australia
Board Member

PANELLIST

Distinguished Prof Xinghuo Yu
Associate Deputy Vice-Chancellor
Research Capability
RMIT University

PANELLIST

Kate Summers
Manager of Electrical Engineering
Pacific Hydro

PANELLIST

David Van Bergen
Senior Power Engineer
Beca

EVENT DETAILS

Thursday 23 November 2017
7:00 - 8:45am
Room 213, Level 2
Melbourne Convention Centre

TICKETS

Breakfast-only tickets: \$80
Conference delegates*: \$50

*This event is being held as part of the National Electric Energy Conference (EECON) taking place in Melbourne from 22-23 November 2017.
